SUMMARY

Full-Stack Development and **UI Design** with hands-on experience in building user-friendly web applications and intuitive interfaces. Proficient in **Java, HTML, CSS, JavaScript,** and **SQL**, with strong skills in endpoint protection, antivirus management, and cloud network security gained at Aditya Birla Group. Currently Interested in building scalable, efficient applications and expanding cloud-based development skills.

SKILLS

- **Languages:** Python ,Java, .NET, JavaScript, SQL, HTML, CSS
- **Tools:** Figma, Canva, VSCode, Tableau, Advanced Excel, Power BI,JIRA, Xampp,AWS
- **Databases:** MySQL
- **Soft Skills:** Proficient Communication, Problem-Solving, Time Management, Team Collaboration

WORK EXPERIENCE

Aditya Birla Group |Junior Software Engineer Apprentice — July2024 -July 2025

- Developed responsive web applications like Project Abhushan using **HTML, CSS, JavaScript, Java**, and **SQL** to ensure usability and performance.
- Created user-friendly UI layouts to enhance overall user experience and consistency.
- Assisted in **SAP** project coordination and documentation to ensure timely deliverables.
- Developed a small Python project to monitor network traffic and log unofficial website usage into Excel.

CodSoft|Web Development Intern — May2024 - June2024

- Built practical web projects, including a calculator and a landing page, using **HTML, CSS,** and **JavaScript.**
- Applied **UI/UX** design skills to create a visually appealing landing page for a gym website.
- Enhanced **problem-solving** and hands-on development skills through real-world tasks

PROJECTS

Abhushan – E-Commerce Website |Full-Stack Web Development |JavaScript, SQL, HTML, CSS|GitHub

- Built a responsive jewelry e-commerce website with a focus on smooth navigation and usability.
- Integrated an **SQL database** to manage products and transactions efficiently.

Network Monitoring & Website Usage Tracker |Python, Excel

- Developed a **Python**-based tool to monitor network traffic and automatically log unofficial website usage into Excel for efficient tracking and reporting.

CodSoft Web Development Projects |HTML, CSS, JavaScript| GitHub

- Developed a responsive calculator application, implementing logical and arithmetic operations.
- Designed and built a professional landing page for a gym website, focusing on clean UI and user experience.

EDUCATION
